Dear Mr. Gunderson:

Enclosed for your review is the Closeout Radiological Survey Report for Building 779 Annex B. We are submitting Building 779 survey reports by building area rather than one large report for the entire building. This approach will allow for smaller and more timely report submissions as opposed to one large volume of radiological data at the end of the project. It should be noted that this report only covers the interior surfaces of Annex B separate reports for the exterior and other portions of the facility will follow.

Questions regarding this letter can be directed to me at (303) 966-5918 or David Nickless (303) 966-5221.

Sincerely,

Joseph A. Legare
Assistant Manager
for Environment and Infrastructure
